Insights and Recommendation

1. Highest product sales

Insight: Electronics generated **622,636** in completed sales, contributing **22.5%** of the total the largest share among Products.

Recommendation: product margins be reviewed before expanding promotions, with monitoring both sales and gross profit.

2.Products Profitability

Insight: Home achieved the highest gross margin at **24.72%**, compared with **22.12%** for Clothing.

Recommendation: to Compare pricing, costs and discounts across Products , and testing promotions for higher-margin products.

3..Returns and Cancellations

Insight: Of **2,585** orders, 247 were returned (**9.6%**) and **122** were cancelled (**4.7%**).

Recommendation: to investigate return and cancellation reasons by city, category and payment method before choosing corrective actions.

4..Discount Controls

Insight: **277** completed order lines generated negative gross profit after discounts, with combined losses of **5,798**.

Recommendation: Review these transactions and set product-level discount limits based on cost and the required margin.

Scope: 1 January **2021**–19 June **2023**. Financial metrics cover completed orders; order outcome rates cover all orders.
